

Please RSVP to Camilla by 24th August 2016

Dear Community Service Provider

I am very excited to invite you to an 8-part workshop series that will give you a whole new portfolio of information about financial sustainability and better resource management. It is an opportunity for professional development, with a certificate offered upon completion.

Yana Llewellyn is a Money Skills facilitator; she works for Westpac and volunteers her time to run financial advice programmes that benefit our community. She and I are combining our knowledge and bringing you:

'Money Skills and Creating a Sustainable Home'

This workshop series is specifically designed for service providers working with clients who are facing financial hardship. The first 6 sessions are led by Yana and focus on easy tips to sustainably manage your finances, this is how to make the most of what you already have. I will be running the last 2 sessions, which focus on home performance and creating warmer, healthier homes on a budget.

Time: 10am - 11.30am (complimentary lunch follows)

Date: Begins 27th September and occurs weekly until the 15th of November

Place: Waikato Environment Centre, 242 Peachgrove Rd, Hamilton

Please note, the workshops are free to participants and also are run voluntarily. If you would like to offer a koha to the Waikato Environment Centre to help cover our venue costs, that is appreciated. Westpac is supporting this initiative as part of its commitment to helping our communities to prosper and grow, by designing some of the resources covered in this course as well as providing the refreshments after each session.

There are limited places available and they will be offered on a 'first come, first served' basis. For more details, please contact me on sustainablefuture@envirocentre.org.nz or 0223410643.

Thank you and looking forward to hearing from you :-)

Camilla Carty-Melis

(Waikato Environment Centre)
